FEATURE PRODUCTS

TRANSFORMERS

- Pulse
- Constant Voltage
- Instrumentation
- Miniature Flyback
- Audio
- Switching Mode
- High Voltage Inductors
- Linear
- Tuned
- RF/IF
- DC Filters

*We Specialize in
Custom Applications*

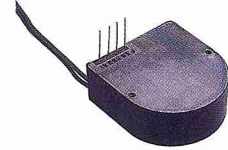

HOSTILE ENVIRONMENTS

OIL AND GAS EXPLORATION, DOWN HOLE MAGNETICS

- High temp construction available
- H.V. Flyback transformers
- Encapsulation
- Wide array of design options
- Built to withstand stringent vibration and thermal shock requirements.

AEROSPACE, RADAR, MARITIME, SATELLITE

- High Altitude
- Withstands salt spray and moisture
- Hermetic sealing
- Rugged construction

TOROIDS

- EMI/RFI suppression, filtering, energy storage
- Powdered iron, ferrite, MPP, tape/bobbin cores
- 1/10" (2.5mm) to 12" (30mm) diameters
- Vertical, horizontal, PC mount, encapsulated and frame mount
- Precision wound

FERRITE RODS

DIRECTIONAL ANTENNAS, CABLE BURIAL EQUIPMENT

- Bobbin and rod core winding
- Close electrical tolerances

TRANSFORMERS

- Power/Switch mode
- Digital/Telecommunications
- TV/Audio
- Cellular/Computer
- Inductors
